

Map Key

	Grey roads are not field checked yet. There will be some mistakes. Some roads might not exist at all.
	Purple roads are suburban roads. They will have lots of driveways and traffic. Use caution on all roads in New Jersey. Thicker lines denote busier roads. Closer to metropolitan areas all the roads will be busy just due to the population. Be careful.
	Purple roads with red outlines are town centers. Expect more traffic here. Only a few town centers are not busy or have businesses.
	Red roads are highways or roads with a divider. Usually will have speeds in excess of 50MPH. Some will have no shoulder. Some highways are off limits to bicycles. Some are not but all are dangerous.
	Green roads are country roads. Houses are spaced apart. Thicker lines denote busier roads.
	Yellow outlined roads are scenic roads. Few or no houses, farmland or forests.
	Brown outlined roads are dirt roads. Southern Jersey dirt roads are omitted because the sand is impossible to cycle on.
	Dead ends are not shown. Neighborhood roads are omitted because they go nowhere. Due to the space available on the map these roads are omitted.
	Climbs are marked with a circle at the bottom and a flag at the top. The number between them is the amount of feet climbed. Most climbs will be 100 feet or greater. Some will be 80 feet. In south Jersey 50 foot climbs are noted.
	Lakes, rivers and oceans. Not all streams are shown, just the big ones.
	Railroad tracks. Only commuter rails at this time. There are other railroad tracks in the state so watch out when crossing. Always try to cross at a 90 degree angle to keep your tires out of the groove.
	New Jersey Transit railroad stations throughout Northern Jersey and South Jersey
	Metropolitan Transportation Authority stations in Orange and Rockland counties.
	Port Authority Transit Corporation Stations in Southern New Jersey
	North arrow. Usually near the center of the map.
	Mile Scale. Usually near the center of the map. In miles and kilometers. Also has the copyright.
	Map name and date. Check this so you can keep up to date and have the latest edition. Usually near the center of the map.

	Parks. Most are locked up by dusk. Try to park near the kids play area. This is the place where your car will be the safest since it has the most activity.
	Shopping centers are not the best place to park. You might find food here, but not always. Always lock your bike.
	Schools. not all schools are noted, just where there are no other options to park. Only use these when school in not in session.
	Food stops. Most are larger highway convenience stores. Some are small private shops that might not be open as much as the larger ones. Usually Sunday afternoon and evening is hit or miss with the small stores. Always lock your bike.
	Scenic overlooks are marked with binoculars. Usually a view that you might have if you were in an airplane.
	Tunnels throughout Northern New Jersey.
	<u>Lime Kilns</u>
	Bamboo This is the fastest growing plant in the world and is highly predatory. Found all over the world, including New Jersey
	No bikes. Bikes are not allowed to cross these bridges at any time. All others are OK. Check ahead of time when crossing large bridges. Some are only crossable at certain times, some you need to phone ahead for permission to cross.
